

SATIS 2007

Sustainable Applications for Tropical
Island States
7th Conference and Exhibition

Renewables: the Road to Sustainability

June 3 - 6, 2007
Cocoa Beach, Florida,
United States of America

◆ **Objectives of the Conference**

- To bring together scientists and technologists from in and outside the Caribbean to present, discuss and develop views on various areas of sustainable energy, its use and supply.
- To identify the most cost-effective applications of sustainable energy technologies for the Caribbean.
- To review the efficient utilization of traditional energy sources and discuss the implications of energy efficiency on the deployment of renewable energy technology in small island markets.
- To develop sustainable alternatives for current conventional use of energy technology in buildings, industry, transportation, water desalination and utilities across the Caribbean region.

◆ **Call for Abstracts**

Abstracts are invited from persons interested in submitting technical papers in the listed technical areas below, or any other topic relating to applications of renewable energy technologies in tropical islands. Please submit an extended abstract, a maximum of six hundred (600) words, single-spaced, to the conference organizers at the address shown below.

◆ **Abstracts Submission**

The deadline for submission of an abstract is February 15, 2007. Notification of abstract acceptance will be given by March 15, 2007. Full papers, camera ready, will be due by May 1, 2007. Abstracts will be published at the Conference; full proceedings will be available at a later date.

Abstracts should be submitted electronically to SATIS2007@yahoo.com. Papers should be sent to the same email address.

website: WWW.caribbeansolar.org/SATIS2007

◆ **Conference Technical Areas**

Energy Efficiency
Energy Economics
Geothermal
Hydropower

Policy and Planning
OTEC and Deep Ocean Cold Water
Low Energy Architecture
Conservation

Biomass
Solar Energy
Wind Energy
Disasters

◆ General Information

This Conference is the seventh in the series of *SATIS* aimed to provide a forum for the dissemination of information on the use and development of renewable energy technologies and systems in tropical islands, particularly in the Caribbean. Topics in renewable energy to be covered at the Conference include energy conservation, biomass, wind energy, ocean thermal energy, photovoltaics, solar hot water systems, solar concentration technologies, solar drying, solar cooking and solar absorption systems, amongst others. One main feature of the Conference will be the Exhibit on “Renewables: the Road to Sustainability”. The organizers encourage the participation of researchers, educators, consultants, investors, environmentalists, industry, policymakers and the general public interested in applications of renewable energy technologies in tropical islands.

For conference organizers and further information, contact:

William Young SATIS 2007 Conference Chairman Florida Solar Energy Center University of Central Florida 1679 Clearlake Road Cocoa, Florida, 32922, USA Tel: + (321) -638-1443 Fax: + (321) -638-1010 E-Mail: young@fsec.ucf.edu	Indra Haraksingh President Caribbean Solar Energy Society Department of Physics The University of the West Indies St. Augustine, Trinidad & Tobago, WI Tel: + (868) - 662- 2002 ext 3122 Fax: + (868) 661-9686 , 868- 622-9904 E-Mail: iharaksingh@yahoo.com
Peter Oerlemans Director InterExpo Caribbean N.V. PO Box 6020, World Trade Center Curacao, Netherlands Antilles Tel: + (5999) -738-1825 Mob: + (5999) -528-0177 E-Mail: peter@interexpo.biz Website: www.interexpo.biz	

◆ Workshop on Energy Conservation and Efficiency

A workshop on energy efficiency and conservation will be held on June 2, 2007. Admission to this workshop is free for Conference attendees, and is open to other interested persons. Instructions will be provided by energy efficiency professionals with ample experience in the Caribbean region.

◆ Exhibits

Industry, government, educational institution, and environmental organization will be exhibiting. Exhibitors will need to register by April 1, 2007. Exhibitor fees will be determined by Peter Oerlemans with InterExpo Caribbean N.V.
E-Mail: peter@interexpo.biz Website: www.interexpo.biz

◆ Accommodations

SATIS will be planned for the Radisson Beach Resort Hotel in Cocoa Beach, Florida. We have made arrangements for a special conference rate for our delegates, at US\$124 per night. Please be advised that Conference attendees are to make their own hotel reservations. This can be done by emailing the hotel at info@radissonhotel.com; in your email please note that you are attending the *SATIS* conference. Additional information may be obtained at their web site: www.radisson.com/capecanaveralf

◆ Conference Fee

Early Registration for the Conference will be **US\$175**, registration after April 30 will be **US\$195**. Registration for Members of the Caribbean Solar Energy Society will be **US\$150**. The fee for *bona fide* full time students will be **US\$50**. Workshop only fee will be **US\$25**.

Attendees may register and submit fees on-line or with the registration form.
